

# BEAUTIFUL WILDERNESS

## British Columbia by Motor Home

**Travelling in Canada makes one feel like being a tiny part of the endless space and majestic nature.**

**Annemarie Koelliker and her husband Roberto Saibene have toured British Columbia by motor home for a month. As the distances are enormous they visited only a part of this wild, romantic region. Their impressions and experiences are beautifully captured in their Multivision show. It tells of endless forests, emerald green lakes, thundering rivers and waterfalls, encounters with cute black bears, the chase for the legendary grizzlies and dramatic landscapes of the Rocky Mountains.**

**The coastline is also rich in natural wonders with wild pristine beaches, impressive virgin forests and fjords. The giant mammals of the oceans, whales and orcas can be seen performing their fascinating displays.**
